

Tentative Agreement Reached

Good morning,

Late last night, your Council of Unions' Bargaining Committee was able to reach a tentative agreement that they are recommending for acceptance.

Your committee representatives were at the bargaining table until almost midnight yesterday, negotiating on your behalf. Thanks to their efforts – and the support and advocacy of you and your colleagues – they were able to achieve what they believe is the best possible agreement without taking strike action.

We are in the process of scheduling virtual information sessions to be held as soon as possible to review the details of the agreement with you, and a ratification vote. Details of the agreement as well as timing on the information sessions and vote will be shared shortly. Please keep an eye on your email!

We appreciate the support and solidarity you've shown to your committee throughout this difficult round of bargaining.
