

**Health Care Council of Unions
Bargaining Update: Collective Agreement Signed**

Dear CUPE members,

We are pleased to announce that your collective agreement has now been signed by all parties. This means that all the provisions negotiated, including new preceptor and reassignment premiums, are now effective.

In addition, the committee struck to identify the "Leading in Atlantic Canada" classifications has been working diligently, with good progress being made. Other committees set in the agreement will begin work as indicated. We will keep you updated as the committees' work continues to unfold.

As always, if you have any questions or concerns about this process, please reach out to your Area VP.
